Experienced in developing full-stack web applications, integrating external APIs, and creating automation workflows using React.js, MongoDB, n8n workflows & Automations. Strong understanding of Data Structures, Algorithms, Object-Oriented Programming, and modern software development practices, with a focus on delivering impactful solutions.

EDUCATION

B.E Computer science and Engineering

2022 - 2026

Mahendra Institute of Engineering and Technology, Nammakal.

CGPA : 8.1

SKILLS

Frontend	HTML5, CSS3, React.js
Backend	RESTful APIs, Node.js
Database	MySQL, MongoDB
Tools	Github, Postman, n8n
Programming Languages	Java, JavaScript

PROJECTS

5-Star Google Review Automation

n8n, Webhook, WhatsApp API, Google Business Profile API, Google Sheets

- Built an automated Google review workflow using n8n, webhooks, and API integrations.
- Sent WhatsApp review requests and captured negative feedback privately.
- Logged customer feedback in Google Sheets and tracked review request status.
- Automated AI-powered replies to new Google Business Profile reviews.

Missed Call Text-Back Automation

n8n, Twilio, Webhooks

- Developed an automation workflow that instantly sends SMS responses to missed callers, gets their contact information, Books appointments to calender.
- Integrated Twilio call events with n8n to create real-time communication workflows.
- Automated lead capture and follow-up processes, reducing manual intervention.

MovieDex – Movie Search & Information Platform

React.js, OMDb API, JavaScript, CSS

- Built a React.js movie search platform using OMDb API
- Integrated REST APIs to fetch real-time movie data dynamically
- Displayed movie details including ratings, posters, and metadata

ACHIEVEMENTS

- 1st Prize EduHack Hackathon Developed an e-learning platform for personalized education
